APPLICATIONS DUE January 5, 2026

SYMPOSIUM DESCRIPTION

The DC Sustainability Summit is the DC Metro area's premiere annual green building symposium. The conference consists of daily inspirational sessions and panel discussions led by thought leaders and experts in green building and sustainable design, as well as a product expo featuring emerging green building materials and technologies.

The DCSS is proudly presented by DCS Design, a DC-based architecture firm championing sustainable design in our community for over 50 years. The conference works across industry silos to foster collaborative solutions and peer-to-peer learning. Our mission is to empower attendees with strategies, tools, and connections to green their businesses and their portfolios, and inspire sustainability in our region.
